

NOTE: Replaced person's name with "he", "him", "his" or "this man".

His Statement 1- Report 1	His Statement 1 Revise-Report 2	His Statement 2- Report 2	Final Report Report 3	911 Report & EMS Report
He knew Rob about 11 years.	He knew Rob approximately the last 8 years.			He knew Rob for quite a while. (911)
He had been counseling Rob for a couple months, first time around thanksgiving, second time being tonight.	Approximately two weeks prior he had conversation with Rob and was attempting to do counseling.	He indicated there had been other counseling sessions.		He said "In my office; he was talking to me." (911)
He came to Nye Rd. around 6 p.m.	He had gone to Nye Rd. at 5:00 p.m.	Earlier in the day he had gone to Rob's house.		
Rob did bring Busch Light and some liquor with him.	Rob did have beer in cans which he had taken out of the pickup truck.	He observed Rob drinking out of a bottle. He had several cans of beer which belonged to him left over from a party		
Robert did come with him back to his residence and bringing beer with him.	He indicates that he did drive around with Rob for a couple hours.	They did drive around for a short period of time and ended up at his house.		
He claimed he had half a beer and that is all.	He had consumed one beer and other nine empty cans were Robs.	He claims both were drinking alcohol during the counseling session, but Rob was drinking heavier.		A guy came in here and we were having a few beers (911)
He disclosed info Rob had told him, stealing safe and being kicked out of house.	He was not able to discuss matters with detective due to it being a confession type incident.	He said Rob was concerned about school and being kicked out of house. Rob concerned that grandfather did not like him, because he stole safe several years ago.		911- "ok, well, has he ever mentioned doing this at all before when he.." He said- "no, not that I know of. I know him for quite a while." EMS- 'depressed today.'

<p>The two were just talking, Rob was getting upset and did stand up and pulled a gun out of his pants and then did shoot himself in the side of the head.</p>	<p>Through the course of the conversation Rob became excitable/agitated and stood up removing a handgun from his front pants pocket pointing it at his head and pulling the trigger one time. Later stated he was not sure what pocket but it came from some where in his pants</p>	<p>Rob became agitated to the point of losing his temper. He attempted to change subject and turned to get coin collection. As he turned back, Robbie stood up having a handgun in his hand pulling the trigger shooting himself one time in the right side of the head. Rob stumbled and He attempted to catch him</p>		<p>He said- “Yes Maam, it’s only a 22.” 911- “What did he shoot himself with?” He said-“It’s only a 22-caliber pistol.” (How would he know?) First He said, “He (Rob) just said forget it and he just raised up and shot himself.” then He said Rob said nothing.</p>
<p>He stated he has never seen the gun before.</p>	<p>He stated he had never seen the gun before and did state that Robert must have brought it with him.</p>	<p>He indicated he has never seen the handgun before. Gun positively identified by woman, living next to his brother in which gun came from and as one he did pick up from there.</p>	<p>He indicated he did not know where gun came from. Statement claims that now there is high probability that weapon was somewhere in that office and Rob got access to it and took his own life.</p>	
<p>He said dispatch did tell him to move the gun away from Rob in case he does try to grab it again.</p>	<p>He did move the handgun for fear that Rob would shoot self again.</p>	<p>He said 911 told him to remove the gun, which he states was still in Robbie’s hand.</p>		<p>Dispatch did not tell him to move the gun. He did not and would not (and stated so) touch anything, the gun or Rob (except for when he supposedly tried to catch him), and Dispatch, asked, “ok, could....is it</p>

				(the gun) in reach of him?" He stated, "no it's down by Rob's feet. (911) He stated, "Everything's like it was. I never touched nothing."
			Blood splatter on desk, wall and carpet. Brain matter on desk. (How could that be if he stood up and shot himself?) Rob was cyanotic-blue, which results from lack of oxygen, not standard in gunshots.	911- He said, "blood's on my desk, and uh, on me, well I tried to catch him." dispatch- "ok, is he bleeding real bad?" He said, "uh no." dispatch, "he's not?" He said, "quite a bit, there's a lit.. I'm not going to move him because I don't want to hurt him and it's on his face and it's on my desk and on my hand, well one hand?"

Residue is not mentioned in the report.

911 - He would not apply pressure to wound.

He asked, "Am I suppose to touch him?" after stating he had already checked his pulse

1st report Deputy Surman located subject on ground.

Deputy Ryan stated when they initially got there the deceased was sitting in the inside chair slumped to the left and was removed from this location and placed on floor so EMS could work on subject. (Det. Stevens said this was a typo)

His Statement 2 He explained there was a handgun that he acquired from his brother approximately two months ago during the moving process and currently could be found in his bedroom in a dresser drawer, indicated it was the gun that he used to shoot a snapping turtle for Robert Jackson.

At this time he did go into his bedroom, observed by Det. Stevens. He did remove a 22 cal. revolver, dark in color, 6 shot, brand name Army. He indicated he has owned this gun for multiple years. That he believes it was registered in his name and safety inspection card was lost in divorce about 15 years ago.

Supplement to report Det. Stevens stated he contacted Mary Palmateer to attend autopsy. Mary told Marie (sister of deceased) she had not heard from the detective and did not know she was supposed to check for foul play.

Deputy came to Nye's Dec. 29, 2006.

We asked why he had not been taken into custody that night. Deputy said from what he knew of the case, had he been first on the scene he would have handled things differently, it should have been treated as a murder first until proven otherwise, not suicide first, because there were 2 people in the room. Deputy suggested if we didn't like the way the case was being handled, to contact Lt. Carr.

Lt. Carr never responded to our phone call.

12/27/06 Just as Bob and Ann were going to Carrie's house, we stopped at the beginning of the road. Bob told DET. Stevens that this man had called Bob after Det. Stevens had left Bob's house (to get his car) before going to Carrie's house. Bob told Det Stevens that this man had told Bob over the phone, "I suppose you heard what happened?" Bob replied, "How did Rob get the gun?" He stated, "I don't know, he must have taken it out of my drawer."

1/10/07 – Det. Stevens was told complete story again when Stevens came to talk about case being closed.

12/27/06- Problems with investigations

This man is drunk

There is a gun involved (is now known to be his)

This man introduces self as Reverend

They don't take him for questioning

They won't do a polygraph

They don't check for gun residue

They don't check the gun for fingerprints

They didn't take his clothing in for evidence

Medical examiner stated to Marie that there was no visible residue or powder on Rob's hands, and that this man alibied self by saying he had touched the gun.

1/5/07 – Called Det. Stevens left message 1 time

1/9/07 – Called Det. Stevens left message 8 times

1/9/07 – Called Lt. Carr left message 1 time

No return calls at all

1/10/07 – Carrie went to see Atty Mark Clark. Mark called Det. Stevens at 11:45. Mark said Det. Stevens will come and see Bob & Ann on 1/11/07.

Det. Stevens came to Bob & Ann's on 1/10/07 at appx. 1:00 p.m. Read questions, most answers were political. Stevens said he didn't return calls previously because he didn't want to stir up a hornet's nest.

Questions and answers asked of Det. Stevens

1. We requested a polygraph and Det. Stevens had no reason for not doing one (although he told us (Bob and Ann) on initial contact on Dec. 27 that this man was drunk and also told us on Jan 10th that he knew this man was drunk at the time of incident.)
2. We asked about lying to police as a felony (Title 18, Chapter 47, Section 1001) Det. Stevens said there is no law against lying and people do it all the time.
3. Asked about counseling with alcohol and gun (wrongful death, involuntary manslaughter, negligent homicide, malpractice). Stevens couldn't answer question.
4. Revised report – didn't ask- Marie was told that Rob sitting in chair was a typo.
5. Asked civil suit if proof guns belong to this man – Stevens said could be done, would take a long time, and wouldn't change anything.
6. Asked about assisted suicide? Stevens said Dr. Jack furnished all equipment and drugs.
7. Asked about this man's statements all twisted. Stevens said the new revised report had changed things (we didn't have revised copy yet)
8. Asked him to talk to the neighbors (-----, -----, -----, -----). Stevens said it wouldn't change anything, (even though Bob Jackson told him that neighbor ----- had told Bob, this man had threatened him twice with a gun. Another lady came in the (grandparent's place of business) one day and said this man had a gun outside their house. Also ----- was at this man's house one day and this man became agitated with --- and grabbed --- by both arm's. --- was frightened by the sudden change in this man's behavior.)
9. Asked Det. Stevens to check with Goodells Market about the purchase of alcohol (cashier remembers this man coming in and buying beer that night) Stevens said they didn't have to because this man admitted having the beer in his house the second statement. First time this man said Rob had the beer.
10. Why was nothing in the Times Herald? Stevens said the Times Herald probably did not contact the sheriff's dept. Marie called Times Herald who said they call the dept. 3 times a day and it was not in the paper because they (sheriff's dept.) stated it was suicide.
11. Asked why he never talked to Bob or Ann after the initial night of the incident? Stevens said because his boss had said he had already spent too much time in the case and he had to close the case.
12. Asked why the gun was not checked for fingerprints. Stevens said they didn't check because this man's prints would be all over it if it was his gun and because this man said he touched it. However he said they had the gun and could check for Rob's fingerprints on the gun. We also asked about fingerprints on the bullets, Stevens said they were so small it would be very difficult to get fingerprints.
13. Asked about gun residue. Stevens said they don't do it anymore because it is very expensive and not reliable and with that gun there would be gun powder all over the room. The next day there was a

front page story in the newspaper about a murder/suicide in which investigators were waiting on the results of a residue report so they could determine who fired the gun.

14. Det. Stevens said that his boss (Lt. Carr) was on him to close this case because he had other cases to work on and that he was spending too much time on this case.
15. Ann said you're telling me if I want to get rid of someone I can shoot him, call 911 and say it was suicide and I would get away with it? Stevens said yes, and the best way to do it is to take him out hunting.
16. Stevens told Lesli (mother of Rob's daughter) that we are all in denial
17. Stevens said this man was obviously drunk when Stevens arrived on the scene and that he is an evil man and a habitual liar.
18. We talked to Stevens of our fear of this man if backed into a corner. Stevens said if this man was going to do anything he'd have done it by now.

1/18/07 – 9:20 a.m. Called Lt. Carr

10:00 a.m. Lt. Carr returned call. Said he couldn't say if case was opened or closed. Carr said to call Gary Albrecht to get information.

Pictures of the office –

Why is there a pillow partially covering his keyboard?

Why blood on desk and between the desk and window?

Why is nothing knocked over in office?

Why is there blood on this man's hand?

Blood on Rob's pant leg by knee, why? A couple pictures there is a towel on the floor where most of the blood is and in other picture there isn't one. Why?

Gun is 6 shot, but only 4 live rounds, one spent. First report said 5 live rounds.

Gun looks like it was wiped down in picture; too shiny and no blood except for maybe one spot on the release for the chamber.

Why no measurements taken, and so few photos?

No pictures (and only 16-18, 6 of Rob) after Rob was moved.

Looks like bullet grazed between where the ear connects to the head (angle checked?)

Robbie's hat appeared to have nothing on it (clean) Rob never takes his hat off. (Was there a struggle?)

Where is Rob's hat? Det. Stevens said it must have gotten lost.
